

WEST GROVE PRIMARY SCHOOL

1, JURONG WEST STREET 72, SINGAPORE 649223

TEL NO: 6267 9234 FAX NO: 6267 9235

Through the Principal,
Mrs Chandler Jay Siva 

24 March 2023

Dear P2 Parents/Guardians,

Welcome back to West Grove Primary School!

We hope you have had a rejuvenating and meaningful March holiday with your child.

As we embark on our exciting journey this term, let us focus on **student outcomes**. While it is important that the children achieve good academic grades, it is equally important for children to be of **good character** and be equipped with social emotional competencies that help them achieve their personal goals.

Research shows that the **psychological factors** encapsulated in PROSPER are critical for achieving positive learning outcomes and ongoing academic success. Such psychological factors can include children's **perception**. Children may view their intelligence as a fixed quantity that they either possess or not (**fixed mindset**) or a malleable quantity that can be increased with effort and learning (**a growth mindset**).

A growth mindset is having the belief that we can actually improve our intelligence and strengthen our skills by putting in effort and facing challenges. Students with a **fixed mindset** believe their intellectual ability is a limited entity that can lead to destructive thoughts, negative feelings (e.g. humiliated) and negative behaviour (giving up). In contrast students with a **growth mindset** will often perceive the same challenge or setback as an opportunity to learn. They respond with constructive thoughts (e.g. maybe I need to change my strategy or try harder); positive feelings (excited by the challenge) and positive behaviour (e.g. persistence). Children who have a growth mindset have been shown to be happier, healthier, and achieve more in life.

Instilling principles of a growth mindset in your child from a young age can set them up for a life of success by encouraging him or her to:

- Take risks.
- Welcome new experiences.
- Enjoy the process and understand the value of learning.
- Face challenges with a positive attitude.
- Work hard.
- Learn from his or her mistakes.

Nurturing Wisdom & Grace Report

The removal of the weighted assessment for P1 and P2 students from 2019 onwards aims to moderate the over-emphasis on academic results and allow students to be more engaged in learning without having to worry about examinations and grades.

Instead, there will be a series of formative assessments conducted to help students understand their level of understanding and achievement for each subject so as to identify the learning gaps and close them. In addition, teachers will also feedback on the students learning dispositions through the school's Nurturing Wisdom & Grace Report.

Learning dispositions are positive behaviours and attitudes that help lay a strong foundation for children to become lifelong learners who find joy in learning. The school hopes to cultivate the right learning dispositions and values of our students from a young age so that they will have a more positive start to their education, focusing on discovery, joy of learning and holistic development.

Portfolio

Besides providing information about your child's progress through the mid-year and end-of-year report cards in the report book, you will also receive information about your child's progress and achievement in the various areas of learning compiled in your child's portfolio file. There will be a selection and organisation of a purposeful collection of your child's independent work to chart your child's progress as well as samples of his/her best work in his/her portfolio. With all the information provided, we hope to provide a fuller picture of your child's progress and learning throughout the year.

Applied Learning Programme

The Applied Learning Programme (ALP) for P2 will take place over 2 days during curriculum – 4 and 5 May 2023. The theme is, "Food Waste". On these 2 days, lessons will be suspended, and students will learn about the implications of food waste and how to prevent food from being wasted. They will have a learning journey and a workshop to learn more about food sustainability. Using the school's customised design thinking framework -- 5-I Innovation Model, students will also be taught the processes to be ambassadors against food wastage. More details will be disseminated to the students nearer the commencement of the programme.

Programme for Active Learning (PAL)

The Programme for Active Learning (PAL) is an integral part of the Primary 1 and 2 curriculum that aims to broaden the learning experiences of our students through play. PAL consists of 4 main modules, namely:-

- Sports & Games
- Outdoor Education
- Performing Arts (Music and Dance)
- Visual Arts

The main objectives of PAL are to:

- provide students with broad exposure and experiences through fun and varied activities areas
- facilitate holistic development of students in the 5 domains, that is moral, cognitive, physical, social and aesthetics
- provide varied avenues for students to develop social and emotional competencies

Collectively, these experiences are building blocks that allow our students to practise the school values of Resilience, Responsibility, Respect, Integrity, Commitment and Kindness, as well as develop them into confident, curious, creative and cooperative students.

For this year, as part of the P2 PAL Outdoor Education programme, the students will be going on an outing to Jurong Lake Gardens. The outing schedule is as follows:-

Class:	Date (Fridays):	Time:
2A, 2B	28/04/2023	10.00 a.m. to 1200 p.m.
2G, 2H	14/07/2023	
2E, 2F	13/10/2023	

More information will be provided nearer to the date of the outing.

Warm regards,

Mrs Teng-Lim Suat Lay
Year Head (P1 & 2)

Schedule of Key Events for Term 2

Date	Activity	Remarks
7 Apr	Good Friday Public Holiday	No school for all students
21 Apr	Early Dismissal for Muslim Students
