Through the Principal,
Mrs Chandler Jay Siva

26th March 2021

Dear P6 Parents/Guardians,

Welcome back to West Grove Primary School!

We hope you have had a rejuvenating and meaningful March holiday with your child. With Safe Management Measures (SMM) still in place for COVID-19, the school will continue to plan for engaging and enriching experiences for your child in term 2.

Since 2019, the Student Development Department (SDD) has adopted the **PROSPER** framework (T. Noble and H. McGrath) to guide us in our students' wellbeing programmes, where we Encourage **Positivity**, Build **Relationships**, Facilitate **Outcomes**, Focus on **Strengths**, Foster a sense of **Purpose**, Enhance **Engagement** and Teach **Resilience**.

As we embark on our exciting journey this term, let us focus on **student outcomes**. While it is important that the children achieve good academic grades, it is equally important for children to be of **good character** and be equipped with social emotional competencies that help them achieve their personal goals.

Research shows that the **psychological factors** encapsulated in PROSPER are critical for achieving positive learning outcomes and ongoing academic success. Such psychological factors can include children's **perception**. Children may view their intelligence as a fixed quantity that they either possess or not (**fixed mindset**) or a malleable quantity that can be increased with effort and learning (**a growth mindset**). Students with a **fixed mindset** believe their intellectual ability is a limited entity that can lead to destructive thoughts, negative feelings (e.g. humiliated) and negative behaviour (e.g. giving up).

In contrast, students with a **growth mindset** will often perceive the same challenge or setback as an opportunity to learn. They respond with constructive thoughts (e.g. Maybe I need to change my strategy or try harder.); positive feelings (e.g. excited by the challenge) and positive behaviour (e.g. persistence).

What causes these mindsets? Several experimental studies found that **praising students for their ability** taught them a fixed mindset (e.g. That's a really high score. You must be smart at these problems). In contrast, **praising them for their effort** or the strategy they used taught them a growth mindset and fostered resilience (e.g. That's a really high score. You must have worked hard at these problems.).

It is important to note that even **how children are praised**, has a profound impact on their **value system** and mindset towards learning; thereby impacting **student outcomes**.

Semestral Assessment (SA)

The dates and topics of the Semestral Assessment to be held in Term 2 are as follows. I hope that the information will better help your child in planning for his/her revision.

*In the event of an absence on the day of the assessment, your child will need to produce a **medical certificate or have a valid reason with supporting documents**. Please note that there will be **no make-up** for the assessment.

Date	Subject	Topics
22 April 2021 Thursday	<u>English Language Oral</u> 6B , 6D & 6F • 2 p.m. to 5.30 p.m. <i>pupils will be dismissed immediately upon completion of their examination</i>	<ul style="list-style-type: none">• Reading Aloud• Stimulus-Based Conversation

	Higher Mother Tongue Paper 1 & 2: Tamil	<ul style="list-style-type: none">• Composition• Units 1 to 4

Academic Reflection

Reflection is an important aspect in learning and character development. Reflection allows us to take a step back, think through our actions and realise the impacts or consequences of it. The school hopes to cultivate Socio-Emotional (SE) competencies and a growth mindset in our students using academic reflections. Students will reflect on their academic achievement after each assessment. Students will be guided to reflect on their strengths, areas of growth and steps they can take to achieve their personal targets to promote SE competencies like self-awareness, self-management and accountability in their own learning.

The academic reflection booklet will be returned with the assessment papers for your reference and acknowledgment. Do make use of it to support your child's growth and progress.

P6 Cohort Day - Ancient Civilization Museum (ACM) Visit

As part of CCE 2021, cohort-learning journeys are a key student development experience. This learning journey aims to support the development of Citizenship dispositions and national identity for students. Cohort learning journeys such as this museum-based learning also provide students with opportunities to create common experiences with peers, in turn strengthening Peer-Student-Relationship as well as Teacher-Student-Relationship. This enriching museum-based learning journey was co-developed with the National Heritage Board. To ensure compliance and to practise Safe Management Measures, only 1 class can visit the ACM per day. The dates for the visit are 21, 22, 23 June and 3 dates in November (after PSLE). More details will be shared at a later date.

My level teachers and I look forward to building a more positive relationship with you in Term 2. Do leave your name and number at 6267 9234 if you have any queries and I will get back to you as soon as I can.

Warm regards,

Mrs Yanie Farid
Year Head (P5 and P6)
